1. Verifying the recipient's identity
2. Creating an Appointment Booking for the recipient via the Appointment Walk-In Tool
3. Creating a Recipient Record on behalf of a recipient
4. Completing a COVID-19 Vaccine Registration on behalf of a recipient

It is important to note that to document a recipient Vaccine Administration in CVMS, the recipient **MUST BE** registered in CVMS. Registered in CVMS means the Recipient Record is found in CVMS, and the **COVID-19 Vaccine Registration** form is complete.

This set of activities can be performed by a user with a **HEALTHCARE PROVIDER, HEALTHCARE LOCATION MANAGER, or STATEWIDE LOCATION MANAGER** profile.

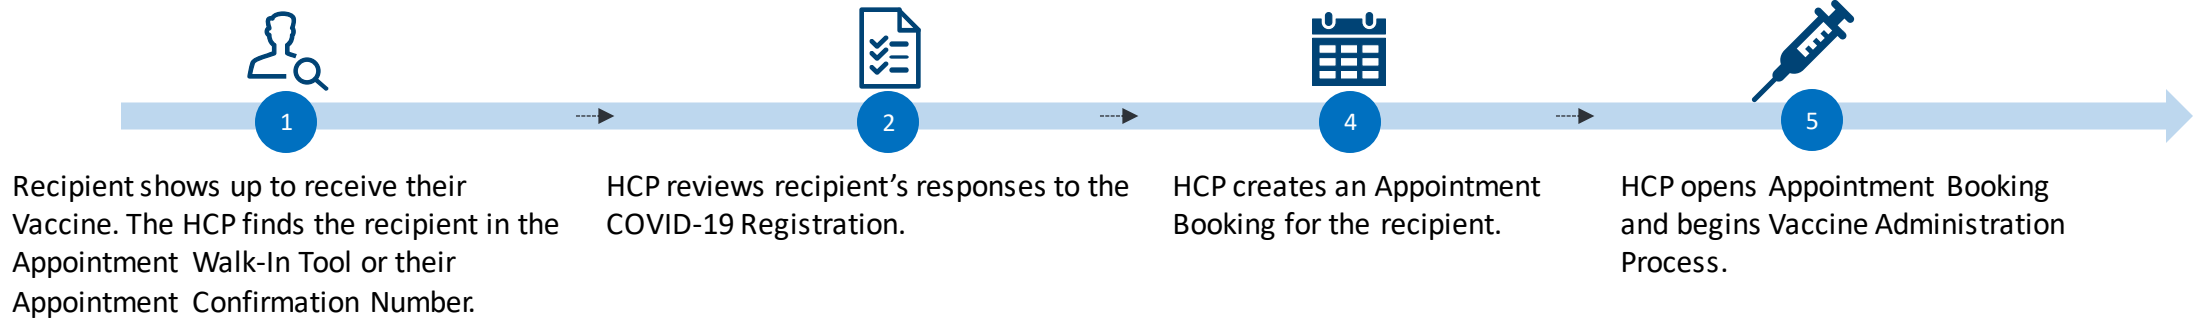

You will also need to:

- Use the latest version of Chrome, Firefox, Safari, or Edge Chromium browsers
- Log into the CVMS Provider Portal at <https://covid-vaccine-provider-portal.ncdhhs.gov> using your NCID username and password.

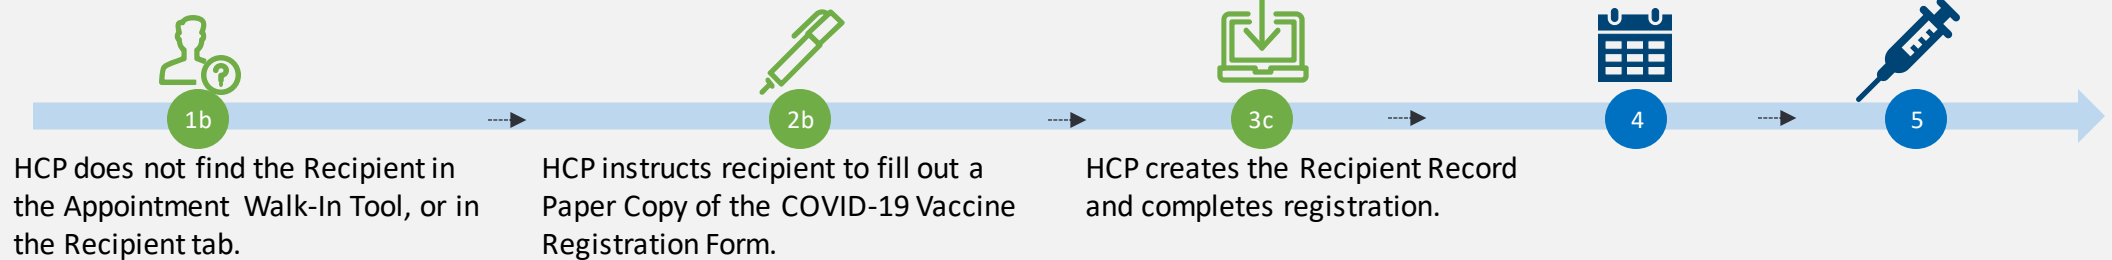

Now, let's get started!

COVID-19 Vaccination Registration

Please complete the registration form for COVID-19 vaccination, which should take less than 5 minutes to complete.

Information about your COVID-19 vaccination is carefully managed to protect your privacy. Your immunization information will not be shared except in accordance with state and federal law. NC CVMS is a system that enables the collection of immunization information for health and safety reasons. The immunization information collected for NC CVMS is similar to the information that is required when you go to the doctor's office or a pharmacy for a vaccination, including your name, address, date of birth, location where vaccine was given, when the vaccine was given, person who administered the vaccine, information about the specific vaccine vial (expiration date, vaccine identifier number, etc.) and how the vaccine was given (e.g., in the muscle of the right arm). NC CVMS also collects information about race and ethnicity, which is necessary to support efforts for equitable vaccine distribution in NC. To meet federal requirements established by the U.S. Centers for Disease Control and Prevention (CDC) and in accordance with NC state law, NC does not submit any identifiable information to CDC. Instead of the CDC requested identifying information, NC is currently submitting the vaccine recipient's year of birth (not date of birth), the first 3 digits of the vaccine recipient's zip code of residence (if the underlying population in that zip code includes more than 20,000 people) and the date of submission of the vaccination record. More information about federal CDC data requirements is available at: <https://www.cdc.gov/vaccines/covid-19/reporting/requirements/index.html>

COVID-19 Vaccination Registration

Please complete the registration form for COVID-19 vaccination, which should take less than 5 minutes to complete.

Information about your COVID-19 vaccination is carefully managed to protect your privacy. Your immunization information will not be shared except in accordance with state and federal law. NC CVMS is a system that enables the collection of immunization information for health and safety reasons. The immunization information collected for NC CVMS is similar to the information that is required when you go to the doctor's office or a pharmacy for a vaccination, including your name, address, date of birth, location where vaccine was given, when the vaccine was given, person who administered the vaccine, information about the specific vaccine vial (expiration date, vaccine identifier number, etc.) and how the vaccine was given (e.g., in the muscle of the right arm). NC CVMS also collects information about race and ethnicity, which is necessary to support efforts for equitable vaccine distribution in NC. To meet federal requirements established by the U.S. Centers for Disease Control and Prevention (CDC) and in accordance with NC state law, NC does not submit any identifiable information to CDC. Instead of the CDC requested identifying information, NC is currently submitting the vaccine recipient's year of birth (not date of birth), the first 3 digits of the vaccine recipient's zip code of residence (if the underlying population in that zip code includes more than 20,000 people) and the date of submission of the vaccination record. More information about federal CDC data requirements is available at:

Looking Up A Recipient Who Received Their First Dose Through a Long-Term Care Facility Partnering Pharmacy

Step 1 of 5: Navigate to the Recipient Tab

The federal government has an agreement with pharmacy partners (e.g., CVS, Walgreens) to vaccinate Long Term Care Facilities and Nursing Homes residents and staff. These pharmacy partners do not use CVMS, but instead upload their vaccination records directly to the CDC.

Even if a recipient received their first dose through a pharmacy partner, they could receive their second dose from a healthcare provider enrolled in CVMS. To vaccinate them, you will have to locate and verify the first dose record before administering a second dose within CVMS.

Begin by navigating to the **RECIPIENT** tab from the CVMS Provider Portal Home Page.

Tips

It’s possible that the recipient has a result in both the **RECIPIENTS WITHIN CVMS** and the **RECIPIENTS FROM LONG TERM CARE FACILITIES** sections. The first record in the CVMS section means they were uploaded by an eligible organization.

The record in the second section means they received their first dose through a Federal Pharmacy Partner.

Step 3 of 5: Search for the Recipient

- 1. Locate the **CORRECT** recipient in the **RECIPIENTS FROM LONG TERM CARE FACILITIES** section of the search results
- 2. The recipient may also appear as a search result in the **RECIPIENTS WITHIN CVMS** section. In that instance, note the **RECIPIENT DOSE STATUS** to see if CVMS has a record of the recipient’s first dose
- 3. Click on the recipient’s name in the **RECIPIENTS FROM LONG TERM CARE FACILITIES** section

Cancelling an Existing Appointment

Step 1 of 5: Search for the recipient

The process to cancel an existing appointment for a recipient begins on the **APPOINTMENTS** tab.

NOTE: There are a few scenarios that may result in an automatic cancellation. First, if a recipient is manually added to **TODAY'S APPOINTMENTS** but does not complete their appointment within 24 hours, the appointment will be **AUTOMATICALLY** cancelled and their Dose Status will update to **DOSE 1 (or 2) CANCELLED**). The second scenario occurs if a recipient creates multiple scheduled appointments (for example at different locations in hopes of being vaccinated as quickly as possible). If a recipient has multiple appointments, all the remaining appointments will be automatically cancelled as soon as one of the appointments is changed to a **DOSE 1 (or 2) ADMINISTERED** status.

- 1. Navigate to the **APPOINTMENTS** tab

Understanding How a Recipient's Vaccine Group is Determined

How the Vaccine Group is Determined

Find My Vaccine Group

SPOT. TAKE YOUR
SHOT.

Tested, safe and effective COVID-19 vaccines will help us get back in control of our lives and back to the people and places we love.

A free COVID-19 vaccine will be available to all who want it, but supplies will be limited at first. We want to make sure people are vaccinated as quickly and fairly as possible, starting with people who are more likely to get COVID-19 and those more likely to get dangerously sick from it.

Use this tool to find your vaccine group.

This survey will not collect any private health information. There is an option at the end to enter contact information if you would like to be notified when you are eligible for vaccination.

Next

Because early supply of the COVID-19 vaccine is limited, **North Carolina has implemented a risk-based prioritization approach** based on guidance from the National Academy of Medicine, the CDC's Advisory Committee Immunization Practice, and the NC Institute of Medicine.

The NC population is divided into multiple Vaccine Groups based on an individual's **OCCUPATION, AGE, and RISK LEVEL.**

When answering the COVID-19 Vaccine Registration form, the recipient is directed to the **FIND MY GROUP** tool (<https://findmygroup.nc.gov>) to follow the prompts that will tell them their Vaccine Group.

Find My Vaccine Group

English ▾

Based on your responses, you are in Group 3: Additional Frontline Essential Workers. You are currently eligible to get a vaccine based on North Carolina's COVID-19 Vaccination Plan.

However, not all vaccine providers may be ready to vaccinate your group yet. Find local vaccine providers at MySpot.nc.gov and contact providers to find out which groups they are currently vaccinating. Remember: you have a spot to take your shot. Vaccines will be available to all who want it, but supplies are currently limited. You may have to wait.

Visit YourSpotYourShot.nc.gov for more information about vaccines. **To receive updates about COVID-19 vaccinations, please provide your email address and/or phone number.**
